

12. (once amended) The apparatus of claim 9 wherein each of one or more of the selectable regions on the display screen [area] indicates the location of the associated selectable region outside the display screen [area].

5

## II. REMARKS

In the last Supplemental Amendment filed in the above Application, Applicant Document No. 032-15, I inadvertently overlooked claims 11 and 12. These claims depend from claim 9 which used to depend from claim 1, but now depends from claim 170. Claim 170 uses the term "display screen" in lieu of "display area". Claims 11 and 12 are now amended to be consistent with the language of claim 170.

10

Favorable reconsideration of the Application, as amended, is respectfully requested.

Respectfully submitted,

15
